PROFESSIONAL EXPERIENCE

VELONIXFUTRURE TECHNOLOGIES

Software Engineer Intern

Kochi, IN

2025-Present

Contributed to the design, development, and optimization of scalable web applications using the MERN stack, with a primary focus on React, Next.js, and Node.js. Collaborated with cross-functional teams to build responsive UI components, implement RESTful APIs, and ensure seamless full-stack integration.

- **Developed dynamic and responsive web interfaces** using React.js and Next.js, leveraging SSR and client-side rendering based on performance needs.
- **Integrated RESTful APIs and backend services** using **Node.js** and **Express.js** to support core application features.
- Utilized tools such as **Git**, **Postman**, and **VS Code** for efficient development and collaboration.

WIPRO LIMITED

Windows Administrator

Kochi, IN

2022-2023

As an Administrator - L1, Managed the IT infrastructure for Takeda Pharma, Japan's largest pharmaceutical company. This project involved providing information technology (IT) infrastructure management services across Takeda's global operations.

- Installed and configured software, hardware, and networks.
- Monitored system performance and troubleshooted issues.

ACADAMIC PROJECTS

COLLABORATIVE CODING IDE

2022-2023

Developed **CodeCollab**, a real-time collaborative coding platform that enables multiple users to write, edit, and debug code simultaneously in a shared environment. The platform mimics an online IDE with features such as live code sharing, syntax highlighting, user presence indicators, and session-based collaboration.

- Developed a real-time collaborative coding platform using React.js, Node.js, Express, and Socket.io, featuring live code editing, user session management, and low-latency multi-user synchronization.
- Integrated Monaco Editor (as used in VS Code) for rich language support and implemented a secure, modular architecture with REST APIs for scalable backend services.

JOB PORTAL

2022-2023

Developed a web-based job portal that allows employers to post job openings and job seekers to create profiles, search for jobs, and apply.

- Developed the application using **PHP** and **MySQL**, implementing core functionalities such as job posting, job searching, profile creation, and application tracking.
- Implemented **user authentication** and **role-based access control**, ensuring secure interaction between employers and job seekers with efficient data management.

EDUCATION

MAR ATHANAIUS COLLEGE OF ENGINEERING,

Master Of Computer Application-7.5 CGPA

Kothamangalam IN

2023-2025
