

Maria Garcia

Full-Stack Software Engineer (Python & React)

maria.garcia@techmail.io • +1 (415) 987-6543 • Austin, TX • linkedin.com/in/mariagarcia-code

SUMMARY

Versatile Full-Stack Engineer with 3.5 years of experience delivering robust web applications using Python, Django, React, and PostgreSQL. Dedicated to writing clean, maintainable code and building intuitive user interfaces.

SKILLS

Core Competencies: Python, React, JavaScript, TypeScript, Django, Flask, HTML5, CSS3, Tailwind CSS, PostgreSQL, GraphQL, Docker

WORK EXPERIENCE

Full-Stack Software Engineer | CloudScale Tech

Jan 2023 - Present (Austin, TX)

- Built responsive React dashboards backed by Python Django REST APIs for cloud resource monitoring.
- Implemented JWT authentication and role-based authorization for enterprise SaaS clients.
- Wrote unit and end-to-end test suites, maintaining 90%+ code coverage across backend and frontend.

Software Developer | WebCraft Studio

Aug 2021 - Dec 2022 (Dallas, TX)

- Created custom web applications with Flask, React, and Tailwind CSS for client e-commerce platforms.
- Integrated third-party payment gateways (Stripe, PayPal) and webhooks securely.

EDUCATION & DEGREES

Bachelor of Science in Software Engineering - University of Texas at Austin

2017 - 2021
